DETAILED ACTION

Election/Restrictions

1. Claims 17-22 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 05-26-05.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claim 1, the phrase "**the first temperature being sufficient to cause a first species to become volatile**" is unclear. The inner surfaces are heated to a range of about 200 to about 400 degrees C (See claim 14). However, the specification discloses the first species (CuCl₂, CuCl), which is deposited on the inner surface are not volatile at the claimed temperature ranges (See paragraph 37).

Re claim 1, the phrase "the cleaning chemistry being reactive with a second one of the plurality of species **to convert the second species to the first species**" is unclear.

The cleaning chemistry reacts with second species (non-volatile metal) to cause the second species to become volatile metal (See Fig.3B). The first species is not

volatile metal, which is one of a plurality of species deposited on the inner surface as claimed in claim 1.

Claims 2-16 are rejected because each includes the limitations of independent claim 1.

4. The lack of an art rejection with this office action is not an indication of allowable subject matter (i.e., even though the claims are rewritten or amended to overcome the rejection under U.S.C. 112 as discussed above). The disclosure/claimed language is such that it is impractical to conduct a reasonable search of the prior art by the Examiner.
